Delivering local, regional, and global ship agency solutions

WaterFront

MARITIME SERVICES

Save Time. Save Money. Reduce Risk.

Introduction

Global Shipping Agency

WaterFront Maritime Services delivers local, regional, and global solutions to Traders, Charterers, Owners, Operators, and Ship Managers.

Our mission is dedicated to facilitating the global movement of major commodities, including dry, liquid, and gas, while continuously analysing and addressing the evolving needs of our clients. We offer seamless data integration between customer systems and the WaterFront System via API, ensuring streamlined and efficient operations. Anchored by our core values of Excellence, Service, Efficiency, and Innovation, we proudly position ourselves as leaders in the ship agency industry.

Our ownership by leading regional agencies

Founded in 1825, Ben Line Agencies offers comprehensive shipping and logistics solutions across the Asia Pacific region, leveraging nearly two centuries of expertise to deliver effective and tailored services.

Established in 1976, Sharaf Shipping Agency is a leading provider of shipping, marine, and logistics services in the Middle East, Indian subcontinent, and Africa, renowned for its commitment to quality and excellence.

MARITIME SERVICES
Save Time. Save Money. Reduce Risk.

WaterFront Service Overview

Full Port Agency: We provide comprehensive support and services to vessels and their crew. This typically includes handling administrative tasks, coordinating logistics, arranging for necessary services such as pilotage and tug assistance, facilitating communication between the ship and port authorities, and addressing any issues that may arise during the vessel's call.

Protective Agency: Our specialised support is designed to protect shipowners, charterers, and operators to safeguard their interests during vessel operations and port visits. The protective agent acts as the client's eyes and ears, overseeing the entire process to ensure smooth and efficient operations while minimising risks and costs.

Hub Agency: WaterFront's Hub Agency Services extends beyond individual port operations, providing comprehensive services on a regional, multi-regional, or global scale. Our 24/7/365 coverage ensures a seamless end-to-end port call process.

Transit Solutions: We offer specialised support to vessels passing through restricted waterways, canals, or narrow straits. The role of a transit agent is to ensure the smooth, efficient, and compliant transit of vessels through these areas

by coordinating with local authorities, managing necessary documentation, and ensuring that the vessel meets all legal and safety requirements.

Bunker Solutions: Our services ensure that the vessel is efficiently and safely supplied with the fuel it requires to continue its voyage. A bunker agent coordinates the entire process, liaising with fuel suppliers, port authorities, and the ship's crew to ensure smooth operations. For tanker operations, timely and efficient bunkering is critical to avoid delays and additional costs.

Husbandry Services:
Logistical and operational support to a vessel and its crew during its time in port/anchorage. These services ensure the smooth functioning of non-cargo-related operations, such as crew welfare, supplies, maintenance, and other essential requirements, allowing tanker operators to focus on their core tasks while the husbandry agent takes care of day-to-day needs.

Documentation Services:
Managing and processing all the necessary paperwork and legal documentation required for the vessel to operate smoothly, both in port and at sea. These services ensure compliance with local and international regulations, minimise delays, and facilitate efficient operations.

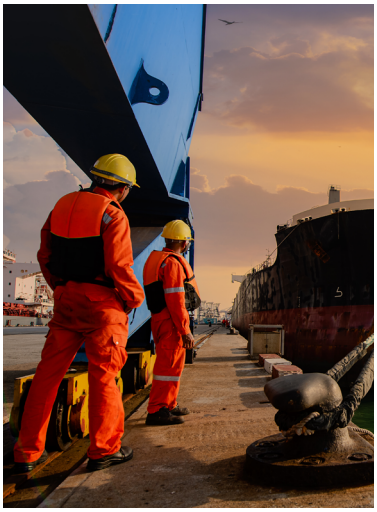

STS Agency Operations:
Enabling seamless cargo transfers at offshore locations, this service eliminates reliance on traditional port facilities. It allows shipping companies to significantly reduce port fees while benefiting from flexible and efficient logistics tailored to their operational needs.

WaterFront At A Glance

Accreditation and Assurance

Prioritising Quality, Health, Safety, Security and Environment (QHSSE)

At WaterFront Maritime Services, we are dedicated to upholding the highest standards across all aspects of our operations. By embedding QHSSE principles in everything we do, we ensure operational excellence and peace of mind for our clients. As one of the few global agencies certified for Hub Agency Services, we proudly hold:

- ISO 9001:2015 (Quality Management)
- ISO 14001:2015 (Environmental Management)
- ISO 45001:2018 (Occupational Health & Safety)

These certifications reflect our commitment to the highest standards in quality, environmental care, and health and safety. Additionally, WaterFront Maritime Services DMCC is recognized as a senior member of ITIC, with a minimum general liability coverage of USD 1,000,000 per occurrence, offering our clients robust protection and peace of mind.

Why Partner With WaterFront Maritime Services?

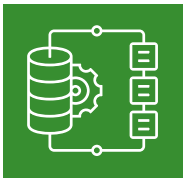

Experienced Team

Our dedicated and experienced team is available around the clock, ready to meet your requirements.

Global Network

With a robust global network, we offer peace of mind assuring you of smooth and efficient operations at each port, no matter where you are.

Data Integration

Our global teams leverage a cloud-based ship operations system, to monitor and optimise the status of our client's vessels worldwide. We can provide data integration between the customer's system and WaterFront System via API.

Customer-Centric Approach

Your satisfaction and operational success is at the heart of everything we do, ensuring personalized and attentive service.

Compliance & Safety

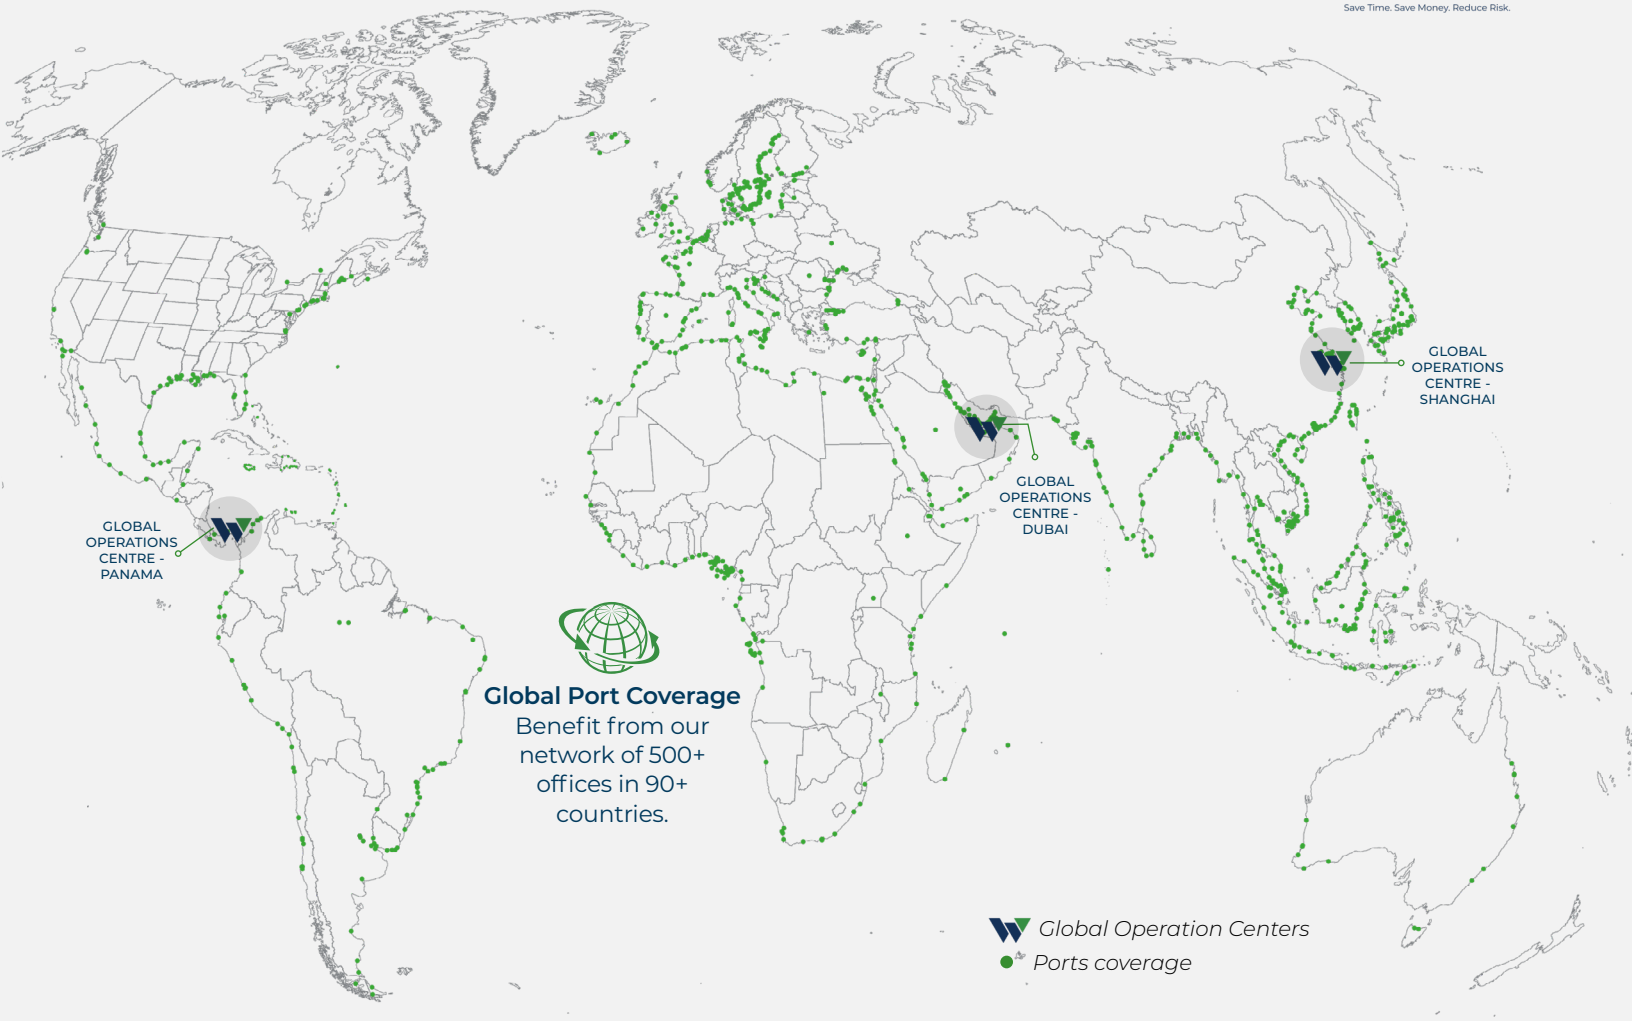

We uphold the highest standards of compliance and safety, strictly adhering to international maritime laws and regulations to protect your interests.

QHSSE

We proudly hold: ISO 9001:2015 ISO 14001:2015 and ISO 45001:2018 . These certifications reflect our commitment to the highest standards in quality, environmental care, and health and safety.

Ensuring Compliance

Zero Tolerance Towards Bribery and Corruption

We enforce a strict ZERO TOLERANCE policy, deeply embedded in our processes and corporate culture. Our procedures are aligned with the UK Bribery Act and the US FCPA, reflecting our commitment to ethical practices. As active members of the Maritime Anti-Corruption Network (MACN) and TRACE certified, we take extensive measures to prevent bribery and corruption and report on the same diligently.

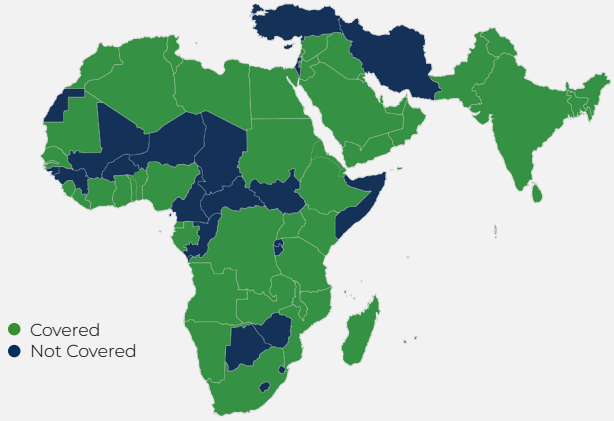

We rigorously collect 'Know Your Customer' (KYC) information and conduct thorough vetting for every local agent appointed on behalf of our clients. If clients have additional Vendor Vetting requirements, we can integrate those into our vetting process on every appointment the vessel, and owner in our database are scanned every 24 hours against sanctions lists from OFAC, UN, EU, UK, Switzerland, Australia, and the UAE.

Our commitment to eradicating bribery and corruption goes beyond policy. We actively manage and mitigate risks at a local level, adhering to global anti-bribery laws and offering Anti-Bribery and Corruption as a MANAGED SERVICE.

Bribery Act 2010 OFAC CERTIFIED MACN MEMBER
